

## Resilient Anti Slip Tape

Similar to Heskins [aqua safe non abrasive anti slip tape](#) , but with a bit more of a rubbery feel to it, the resilient anti slip tape is also a non-abrasive tape, making it kind to bare skin. This is also ideal for kitchens and hospitals due to having no peaks and valleys for dirt and bacteria to harbor. The non slip material also has a slight 'give' to the surface, which relieves muscle tension when standing in one spot for long durations.

We stock the resilient tape in black or yellow, but as always, dependent on quantity, can do any colour matching Pantone or RAL reference.

To find out more info on our resilient anti slip tape, you can [contact us](#) through the website, or call the sales team on 01254 832266
